ECONOMISTS FLAG UPSIDE RISKS AS ENERGY PRICES FIRM UP

# March retail inflation seen at 3.5%: FE Poll

WAR IMPACT

CPI inflation estimated at 13-month high of **3.5 YoY** in March

Headline retail inflation was **3.2%** in Feb

In January, headline retail inflation was **2.75%**

March CPI print expected to reflect impact of ongoing West Asia conflict

Economists projected food inflation in range of **3.3% to 5.3%** YoY in March

**KULDEEP SINGH**  
New Delhi, April 6

HEADLINE RETAIL INFLATION

In March is estimated to have edged higher, driven largely by rising fuel prices, economists said. Consumer Price Index (CPI) inflation is pegged at a 13-month high of 3.5% year-on-year for March, according to the median estimate of an FE poll of economists. Headline retail inflation stood at 3.2% in February and 2.75% in January. If realised, this would mark the 14th consecutive month that inflation remains below the Reserve Bank of India's (RBI) medium-term target of 4%. The Ministry of Statistics and Programme Implementation is scheduled to release the official March inflation data on April 13. Estimates in the poll of

seven economists ranged between 3.3% and 4%. The March CPI print is expected to reflect the impact of the ongoing West Asia conflict, which has triggered a sharp rise in global crude oil prices in recent weeks. Sakshi Gupta, Principal Economist at HDFC Bank, pegged March CPI inflation at 4% due to higher fuel prices and said that the "risk to this forecast is tilted towards the upside". "Fuel inflation is estimated to rise by 11% y-o-y compared to 0.1% y-o-y in February. "Within the fuel basket, LPG prices are estimated to have registered an increase of 5.6% m-o-m in March," Gupta said. She also estimated an increase in firewood and chips prices, as households have increased their reliance on alternative energy sources.

"On the other hand, if there is higher pressure from firewood prices, headline CPI could print closer to 4.5% in March," Gupta added. NR Bhanumurthy, Director at Madras School of Economics, said there is upward pressure on inflation, though the extent to which the oil shock will be transmitted will take time to fully materialise. He also highlighted rupee depreciation as another factor that may have raised the cost of intermediate goods across the supply chain, potentially pushing up non-oil intermediate commodity prices. Gaura Sen Gupta, Chief Economist at IDFC First Bank, said the rise in inflation is also due to adverse base effects, apart from increases in Liquefied Petroleum Gas, Aviation Turbine Fuel and kerosene prices.

# No price volatility despite West Asia conflict: Govt

**SANDIP DAS**  
New Delhi, April 6

THERE IS NO "unusual volatility" in prices of essential agricultural commodities due to the West Asia war, a senior government official said on Monday. "We are keeping a close watch on the food security situation in the country and monitoring prices of food commodities while ensuring adequate supply," said Anu-

pam Mishra, Additional Secretary in the Department of Consumer Affairs, at a briefing. On pulses, Mishra said the government currently holds a buffer stock of 2.8 million tonnes (MT), including 0.7 MT each of chana and tur, which can be deployed for market intervention if required. He added that the government has approved duty-free imports of tur and urad to augment domestic supplies.

# LNG disruption prompts 2.5 MT urea import plan

**SANDIP DAS**  
New Delhi, April 6

TO ENSURE ADEQUATE availability of fertiliser for the upcoming kharif season, Indian Potash Ltd has floated a tender to import 2.5 million tonnes (MT) of urea.

According to the tender document, 1.5 MT of urea will be imported through ports on the west coast, while the remaining volume will be shipped through ports on the east coast. The move comes after domestic urea production was disrupted last month, as LNG supply—the key feedstock for fertiliser production—was affected due to the closure of the Strait of Hormuz. LNG imports from Qatar and the United Arab Emirates (UAE) are routed through the strait, which has been blocked amid the ongoing West Asia conflict.

The urea shipments are scheduled to leave ports by June 14, Indian Potash, which imports urea on behalf of the government, said. The government on Saturday also extended the state trading enterprise (STE) status for Indian Potash for importing urea on government account until March 31, 2027.

# India's growth seen slowing

ICICI BANK HAS revised India's projected GDP growth for the 2027 fiscal year to a range of 6.8-6.9% from a previous estimate of 7.2%. This adjustment follows significant disruptions in energy

supply and manufacturing momentum triggered by the ongoing conflict. According to a report by the bank, the economic outlook has shifted as global oil prices and

supply chain blockades begin to weigh on domestic production. The revised forecast of 6.8-6.9% relies on the assumption that oil prices settle at \$85 per barrel as supply lines improve. —ANI
